

**Who are we?**

The Walkerton Park Dept is a great addition to our town. We are very fortunate, as a community, to have a department that offers a variety of opportunities, programs, and recreational facilities. The Walkerton Parks Department provides growth for our community through a wide range of activities. Some activities include youth sports, adult sports, and much, much more.

Not interested in participating in a program? That is ok.

We have something for you!!!

Walkerton Parks has a lot to offer from outdoor trails throughout our parks, two playgrounds located at Scarborough and Place Park, a splash pad, sand volleyball courts, pavilion and building rentals, to baseball, softball and soccer fields.

**Who runs the park?**

Walkerton Parks consists of three employees. We have a full-time Maintenance Superintendent, a Programming Assistant, and a Park Superintendent. These three individuals are in charge of all of the parks day to day operations, creating opportunities over the holidays, as well as throughout the year, and providing a safe environment for all.

**How are these events/programs funded?**

Working on a limited budget, these events would not be possible without your generous donations. The Park Department is dedicated to growth for its parks. We would love to create and organize new events for the community, however, that is only possible with the continued support of our sponsors.

**We take satisfaction in being able to provide an assortment of activities. We look forward to growing with you.**
